European Patent Application No.: 01 115 292.3

DENSO CORPORATION

Dear Mr. Kaneko,

Enclosed please find copies of the following documents:

- ☒ Partial European Search Report. The subject matter of claim(s) 15 - 29 was not covered by the search and - unless an additional search fee is paid - may only be pursued within the framework of a divisional application. Therefore, please instruct us in good time before

December 14, 2002 (non-extendible deadline)

whether or not we should pay the additional search fee. The payment is recommendable if the applicant has already decided to pursue the additional subject matter. It is impossible to dispute about the question of unity or lack of unity of the subject matter of the application with the Search Division. However, after an additional search fee has been paid, the Examining Division - once the examination procedure has started - can be requested to refund the additional search fee. As a matter of course, the Examining Division will comply with this request only if, contrary to the opinion of the Search Division, it judges the application to be unitary. If the Examining Division also regards the application as non-unitary, it will demand that the non-unitary subject matter be excised.

- ☒ References cited in the European Search Report (1 sets). In order to save costs the cited references have not been studied yet
- ☐ Modified abstract

We hope to have been of service to you and enclose our invoice for services rendered.

Very truly yours,

Thomas J.A. Leson
